Cannon® Downriggers

TECHNOLOGY THAT DOMINATES ON THE WATER

There just isn't another electric downrigger on the market that's built as tough – and as smart – as a Cannon. Check out the features that make it the most advanced downrigger on the water, then choose the one that's right for you.

The Connected Downrigger

Cannon downriggers have always included smart design. But we've come a long way since our first manual models. The Optimum is the first smart, connected downrigger, giving you complete control on the water, from anywhere on your boat.

WIRELESS INTEGRATION

Your Optimum downriggers can be wirelessly networked, so managing multiple lines is easier than ever. With a push of a button raise all your weights or just one, so you can focus on the catch.

ONE-BOAT NETWORK™

With the One-Boat Network™, you can control your Optimum downriggers and view trolling data from them on your Humminbird fish finder and the Cannon app on your mobile device.

MOBILE APP CONTROL

With the Cannon app on your mobile device, you can connect and control up to four Optimum downriggers and download software updates for your downriggers.

PRECISE BAIT POSITIONING

Our most advanced features keep your tackle right where it needs to be.

DEPTH CYCLING

Program your downrigger to automatically cycle your tackle to cover more water. Just select your cycle depth, the range and the speed. Your Cannon does the rest.

PRESET DEPTHS

Store up to five depths in your downrigger, so you can quickly put bait back in the strike zone.

BOTTOM TRACKING

Set your offset distance from the bottom, and your Cannon downrigger will keep your bait at that precise distance automatically, even as your depth changes (requires transducer accessory, (394320) or connected to a Humminbird fishfinder transducer.

Cannon® Electric Downriggers

Cannon® Electric Downrigger - Optimum & Optimum TS

The Optimum provides new intelligence to controlled depth fishing in an all-white construction, stainless steel spool and 316-grade telescopic boom, ideal for saltwater applications. Precisely troll any lure while presenting depth and trolling data on a full-colour 3.5" LCD display. Optimum TS wirelessly networks up to four downriggers which can be controlled simultaneously through the Cannon mobile app or a compatible Humminbird fish finder.

Features:

- **Wireless Integration** - Fully integrates with the Cannon mobile app and up to four Optimum downriggers wirelessly. The wireless network allows for features like Auto Up all, with one push of a button to instantly retrieve all your weights at once or one at a time
- **Full-Colour LCD Screen** - 3.5" LCD screen with customizable views, sonar data, user preferences and day and night mode settings
- **Precision Controls** - Stores up to 5 Preset Depths and remembers the depth of last catch. Cycle the weight up and down at preset intervals with Depth Cycle, or use Bottom Tracking to automatically keep your bait at preset distance from the bottom
- **One-Boat Network™** - Complete wireless Integration with select Humminbird® fish finders for full control and critical trolling data
- **Waterline Zero** - Protect your boat from swinging weights. Your downrigger will automatically keep your weight at a set distance below the waterline
- **Positive Ion Control (PIC)** - Your boat's electronics create a fish-repelling negative energy field in the water. Positive Ion Control neutralizes the negative energy field so fish will stick closer to your line
- **Speed Adjustments** - Five (5) adjustable retrieve and deploy speeds with up to 250 feet-per-minute weight retrieval rate
- **Stainless Steel Telescopic Boom** - 316 marine-grade, extends from 24" to 53"
- **Stainless Steel Spool** - Comes pre-spoiled with 400' of 150 lb of stainless steel cable. Built to handle monofilament or "super lines" without snapping or breaking
- **Dual Axis Rod Holder(s)** - Includes rear mount rod holder(s)
- **Removable Side Plate** - Easily access the spool to switch lines, fix snags and make adjustments
- **Includes** - Universal Mounting Base, Low-Profile Swivel Base, line terminator, two (2) saltwater line releases, and manual crank handle

394219	Optimum TS

Cannon® Electric Downrigger - Magnum 10 STX-TS & Magnum 10 STX

These are our simple to use electric work horses featuring extendable booms and swivel bases. They are perfectly suited to all the saltwater species you can target – from tuna to mackerel to kingies – you will get to the fish.

The Magnum 10 STX downriggers share the same features except that the TS **394231** has a stainless steel spool.

Features:

- Auto-Up feature retrieves the weight at the push of a button
- Dual axis adjustable rod holder
- IP68 waterproof power cord
- Removable side plate for easy spool access
- Includes mounting base and low-profile swivel base
- Three-digit depth counter
- Integrated ball storage hook
- 20lb ball weight weight capacity
- Includes line release and 76m of 68kg test stainless steel cable
- Corrosion-resistant construction
- Limited lifetime warranty

BLA Code	Description
394231	Magnum 10 STX-TS
394233	Magnum 10 STX

Cannon® Electric Downrigger - Magnum 5

The Mag 5 opens the door to our Electric Downrigger family. If you are fishing alone there is no bigger advantage to an electric retrieval of your bomb when you hook a fish. Just flick the switch and it will bring your bomb up so you can get back to fishing. The Mag 5 has a fixed spool length and does not include the swivel base of the Magnum 10 STX models.

Features:

- Auto-Up feature retrieves the weight at the push of a button
- Dual axis adjustable rod holder
- IP68 waterproof power cord
- Removable side plate for easy spool access
- Three-digit depth counter
- Includes mounting base
- Integrated ball storage hook
- 20lb ball weight capacity
- Includes line release and 76m of 68kg test stainless steel cable
- Corrosion-resistant construction
- Limited lifetime warranty

394235

Cannon® Manual Downriggers

Cannon® Manual Downrigger - Uni-Troll 10 STX-TS & Uni-Troll 10 STX

The Uni-Troll 10 range are suited to all the salt and freshwater fishing you can throw at them from mackerel to kingies and all the barra and cod you can get a lure to. The Uni-Troll 10 downriggers share the same features except the TS has a stainless steel spool.

Features:

- 2:1 retrieval speed
- One-hand clutch deploy for simple, precise bait positioning
- Enclosed boom end pulley prevents line jumping
- Easy-access universal mounting base – same as our electric models
- Dual axis rod holder – fully adjustable, both front to back and side to side
- Stainless steel, heavy-duty telescopic boom extends from 61cm to 135cm
- Includes mounting base and low-profile swivel base
- 20lb ball weight capacity
- Ergonomic crank handle
- Integrated ball storage hook
- Three-digit depth counter
- Pre-spooled with 61m of 68kg test stainless steel cable and includes a line release
- Limited lifetime warranty

BLA Code	Description
394237	Uni-Troll 10 STX-TS
394239	Uni-Troll 10 STX

Cannon® Manual Downrigger - Uni-Troll 5 ST

The Uni-Troll 5 shares the same features as the Uni-Troll 10 STX except that it has a fixed heavy duty boom and does not include a swivel base as standard.

Features:

- 2:1 retrieval speed
- One-hand clutch deploy for simple, precise bait positioning
- Enclosed boom end pulley prevents line jumping
- Easy-access universal mounting base – same as our electric models
- Dual axis rod holder – fully adjustable, both front to back and side to side
- Heavy duty stainless steel 61cm boom
- Includes mounting base
- 20lb ball weight capacity
- Ergonomic crank handle
- Integrated ball storage hook
- Three-digit depth counter
- Pre-spooled with 61m of 68kg test stainless steel cable and includes a line release
- Limited lifetime warranty

BLA Code
394243

Cannon® Manual Downrigger - Easi-Troll ST

The Easi-Troll is one of our most popular downriggers suited to smaller saltwater applications and most Australian and New Zealand freshwater fishing. It is the first in the line to feature the new axis rod holder and universal mounting base that all the larger models use.

Features:

- 1.5:1 retrieval speed
- One-hand clutch deploy for simple, precise bait positioning
- Easy-access universal mounting base – same as our electric models
- Single axis rod holder – fully adjustable front to back
- 61cm stainless steel boom
- Includes line release
- 12lb ball weight capacity
- Enclosed boom end pulley prevents line jumping
- Ergonomic crank handle
- Three-digit depth counter
- Pre-spooled with 46m of 68kg test stainless steel cable
- Limited lifetime warranty

BLA
Code
394247

Cannon® Manual Downrigger - Lake-Troll

The Lake-Troll is suited to small boat applications and would suit small boat lake fishing.

Features:

- 1:1 retrieval speed
- One-hand clutch deploy for simple, precise bait positioning
- Includes line release and tube-style rod holder
- 46cm copolymer boom
- 8lb ball weight capacity
- Quick mount tab-lock base
- Swivel-head depth counter
- Pre-spooled with 30m of 61kg test stainless steel cable
- Limited lifetime warranty

BLA
Code
394250

Cannon® Manual Downrigger - Mini-Troll

The Mini-Troll is a great entry model to get into small boat downrigging. It is suited to small dinghys due to the clamp style mount. Line release clip and ball not included.

Features:

- Horizontal reel/brake
- 30cm composite boom
- 4lb ball weight capacity
- Swivel-head depth counter
- Pre-spooled with 30m of 61kg test stainless steel cable
- Limited lifetime warranty

BLA
Code
394252

Cannon® Downrigger Transducer

Provides bottom tracking ability on Optimum and Digi-Troll™ downriggers. Network downriggers to troll at set distances from the bottom through this single transducer. Bottom tracking allows the weight to maintain a precise distance from the seabed, to increments of 300mm. Includes mounting bracket.

BLA Code	Frequency kHz	Beam Angle	Cable Length m
394320	200	18°	6

Cannon® Low Profile Swivel Base

Heavy duty Lexan and stainless steel swivel base. Six point locking, including two 45° positions. Suits all downriggers except Lake Troll™ and Mini Troll™. Stainless steel mount fastenings included to connect to up to 6mm thick deck.

BLA Code	Length mm	Width mm	Height mm	Mount Holes mm
394358	189	146	29	6r/h

Cannon® Base

Now standard across electric and manual downriggers except Lake Troll™ and Mini Troll™. This base is available for a second mount or replacement.

BLA Code
394364

Cannon® Rail/Side Mount

Built to secure a downrigger to the "T" joints on rails of boats with narrow gunwales. Built with machined aluminium and powder coated to resist corrosion.

BLA Code	Length mm	Width mm	Height mm
394374	128	128	105

Cannon® Base Mount Tab Lock

Replacement or additional base mount for Lake Troll™, legacy Cannon® Sport-Troll™ or pre 2013 Easi Troll™. Manufactured from durable, maintenance free, U.V. stable Lexan.

BLA Code	Length mm	Width mm	Height mm	Mount Holes mm
394350	145	130	35	6r/h

Cannon® Downrigger Weights - Fish-Shaped

These weights range in size from 6lb to 12lb and have a stream-lined fish shape that will travel through the water with less resistance than a round weight.

BLA Code	Size lb
394463	6
394464	8
394465	10
394466	12

Cannon® Downrigger Weights - Round

Cast lead downrigger weights with brass attachment points. Designed for use on all downriggers.

BLA Code	Weight lb
394432	6
394434	8
394436	10
394438	12

394432

Cannon® Downrigger Cover

Soft, non-abrasive backing and Velcro® enclosure allows for a secure, protective fit on all larger-bodied downriggers above Lake Troll.

BLA Code
394340

Cannon® Gimbal Mount

Black powder coated aluminium bracket that will mount any of the Cannon® downrigger range, except Mini-Troll™, into an existing rod holder. Pre-drilled to accept all bases. Solid 13mm thick top mount pad. Extra heavy duty 6mm wall thickness support tube. Stainless steel mount fastening included.

394366

BLA Code	Height mm	Mount Pad mm	Tube Dia mm
394366	225	127 x 127	38
394370	305	127 x 127	38

Cannon® Line Release**Offshore Saltwater**

Corrosion resistant, high-tension spring is designed for heavier saltwater lines. Troll at high speeds in deep water with its heavy duty release. Anti-fouling pins prevent line from snagging behind the gripper pads.

394402

Offshore Stacker Clip

Adds the ability to fish at multiple depths off a single weight with the popular offshore line release.

394400

BLA Code	Description
394400	Offshore stacker release Cannon
394402	Offshore release Cannon

Cannon® Release Clips**Universal**

Two adjustment points enable the universal release clip to be precisely adjusted to release at 0.9kg (2lb) and 9.97kg (22lb), making this a versatile clip, whether you are trolling deep diving hard bodies or live baiting.

394404

Pinch-R-Release Clip

Spring action clip available in a single format. Opens easily with finger pressure with an operating release range of between 0.9kg (2lb) and 5.4kg (12lb). The deeper the line is set back in the pads the greater the pressure.

394412

BLA Code	Description
394404	Universal line release Cannon
394412	Pinch-R-Release Cannon

Cannon® Quick Release Clip

Single clip is easily tensioned by rotating the small knurled knob on the side.

394424

BLA Code	Release
394424	Single

Cannon® Downrigger Wire

Replacement stainless steel wire to suit Cannon® Downriggers.

394440

BLA Code	Length m	Break Load kg
394440	45	68
394442	60	68
394444	120	68

Cannon® Termination Kit

Suits all Cannon® Downriggers. Includes six crimpless snap-on terminators, six snap-on swivels and six cushion tops. Also available as terminator only.

394462

394460

BLA Code	Description
394460	Termination kit
