## BEFORE INSTALLATION AND USE PLEASE READ THE INSTRUCTIONS AND WARNINGS CAREFULLY

Should you have any questions or require assistance, please contact your DARCHE® retailer or call our customer service line: 1300 367 695

Familiarise yourself with the product. We recommend that you unpack and set up your Eclipse Cube Shower Tent at home before use.

Damage from incorrect set up or use is not covered under general warranty.

Inspections: During trips regularly check that all nuts and bolts attaching your Eclipse Cube Shower Tent to your vehicle are tight and in good condition.

## WARNING

Keep all flame and heat sources away from the Shower Tent.

DARCHE® recommends fixing all peg points at all times when Shower Tent is in use.

Ensure sufficient fall for water run-off is provided.

Avoid using this Shower Tent in extreme weather conditions.

## ATTACHING SHOWER TENT TO L-MOUNTING BRACKETS

It is recommended that the Eclipse Cube Shower Tent is set up with two people. DARCHE® recommends using an experienced after-market 4x4 accessories fitter to mount the Shower Tent to your vehicle. Fasteners and fixing connections should be checked regularly on both the Shower Tent and roof rack to ensure the Shower Tent is always mounted securely to your vehicle roof rack.

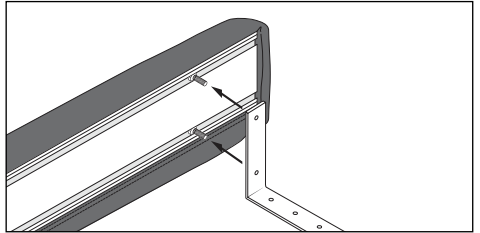

### STEP 1.

Remove the end cap on the channel and slide the supplied 4 x M8 x 20mm (short bolts) into the grooves located in the aluminium backing plate.

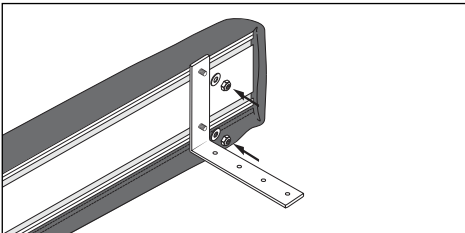

### STEP 2.

Position the L-mounting brackets onto the Shower Tent using the short bolts.

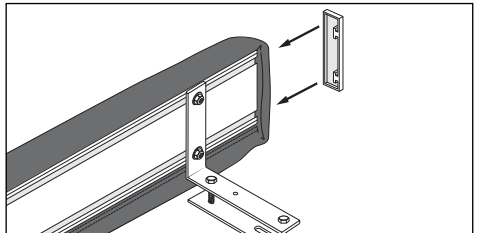

### STEP 3.

Align Shower Tent into desired position and tighten.

### STEP 4.

Recheck the tightness of nuts and bolts then attach the end cap

### IMPORTANT!

PROLONGED TRAVEL ON UNEVEN, ROUGH OR CORRUGATED TERRAIN WILL REQUIRE MORE FREQUENT INSPECTIONS.

## **ATTACHING BRACKET TO ROOF RACK**

Your DARCHE® Eclipse Cube Shower Tent has been designed for a universal fit on most common roof rack and roof bar systems. It is advisable that you contact the manufacturer of the roof rack or roof bar system on your vehicle for the recommended attachments required for fitting this product. Some roof racks are designed to allow direct fitting of the Shower Tent without the use of the L-mounting brackets.

The 2 x L-mounting brackets supplied are designed to attach to most roof rack and roof bar systems. This Shower Tent also comes with 2 x steel clamp plates for installation to a roof bar system (if required).

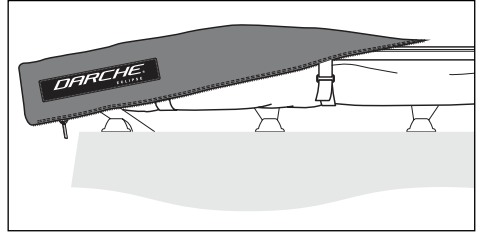

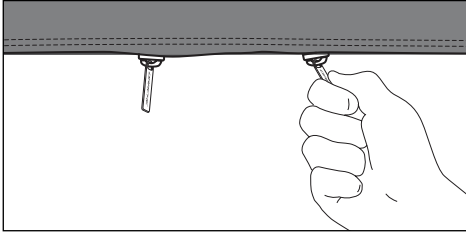

## **DARCHE TAKES NO RESPONSIBILITY FOR THE FITMENT OF THE SHOWER TENT TO ANY VEHICLE OR ROOF RACK.**

**TIP:** We recommend that you go for a short drive after attaching the Shower Tent to your vehicle, then recheck all fasteners and fittings. Check the position of the Shower Tent and brackets and ensure the Shower Tent is secure and adjust if necessary.

## SHOWER TENT SET UP

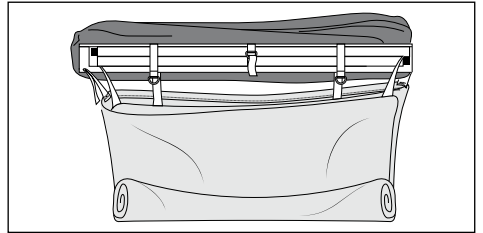

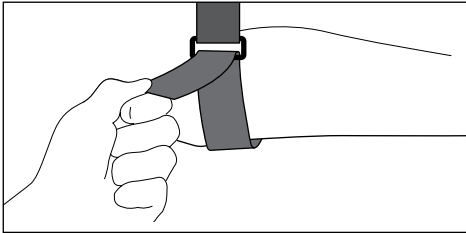

### STEP 1 - OPEN / UNZIP THE COVER

Unzip the transit cover and fold it back over the Shower Tent backing plate.

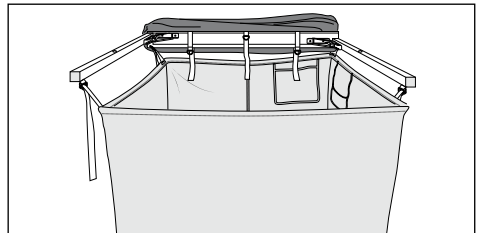

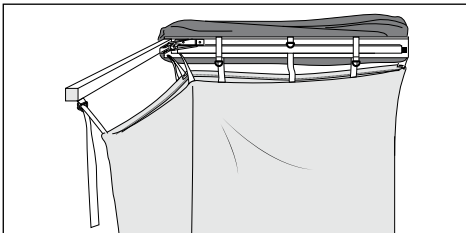

### STEP 2 - RELEASE SHOWER TENT

Release the two outer hook and loop fasteners and unroll the shower tent walls.

### STEP 3 - OPEN THE SIDE ARMS

Release the centre hook and loop fasteners that hold the side arms in place. Extend the left side arm until it locks into place. Repeat with the right side arm until it locks into place.

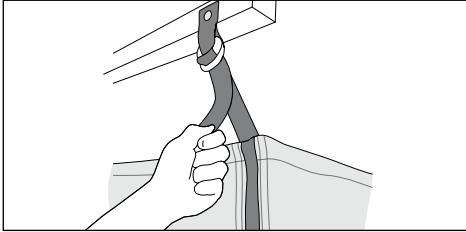

# INSTRUCTION MANUAL

## SHOWER TENT SET UP

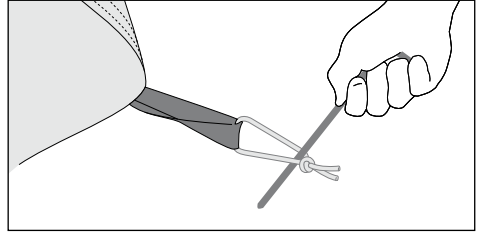

### STEP 4 - SIDE STRAPS

Adjust the side straps on each of the side arms to the required height.

### STEP 5 - PEG OUT

Peg out the base of the shower tent walls at each of the four corner points.

### STEP 6 - TOWEL CORD

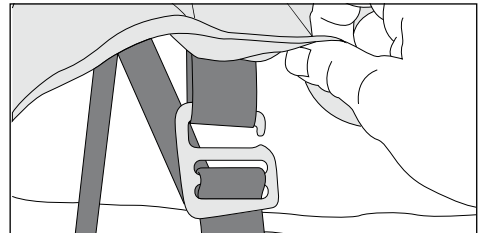

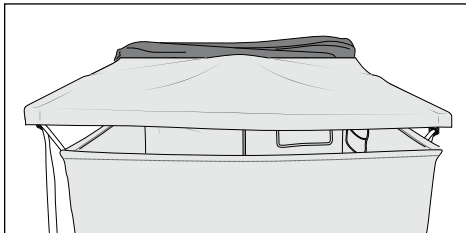

A towel cord can be attached inside the Shower Tent to hang a towel.

### STEP 7 - SHOWER HEAD HOLDER

A shower head holder can be placed onto one of the arms to secure a shower head.

### STEP 8 - ATTACH THE ROOF

Unfold the Shower Tent roof and place over the arms, then connect each of the webbing loops at each corner to the Shower Tent.

**TIP:** In case of rain, remove the Shower Tent roof or completely pack away to ensure no water pooling or water build up occurs.

## STEP 9 - LED LIGHTSTRIP

An LED lightstrip may be supplied with this Shower Tent. This LED lightstrip comes with a USB connection that requires an external power supply from a USB portable power bank (power bank not supplied).

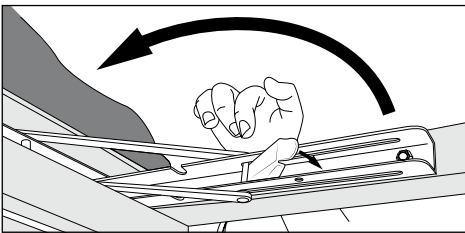

Any alterations to this electrical system may cause a safety risk and will void the product warranty.

For exact lighting specifications and required outlet rating please refer to our website ([www.darche.com.au](http://www.darche.com.au)), or get in touch with our customer service team (P: 1300 367 695, E: [info@darche.com.au](mailto:info@darche.com.au)).

- The light source of this luminaire is not replaceable; when the light source reaches its end of life the whole luminaire shall be replaced.
- **DO NOT** use extension leads to power this light.
- Check the rating of the outlet before connecting the light to avoid a dangerous situation.
- **ONLY** connect this light to a suitably rated outlet.
- **DO NOT** stare at the light source as it may cause damage to your eyes.
- This light has been specially designed and should only be used with this product.
- Not suitable for use in any other application other than its intended purpose.
- Disconnect power supply to LED when not using Shower Tent.

## SHOWER TENT PACK DOWN

1. Ensure Shower Tent is completely dry before storing.
2. Undo all pegs and pack into the storage bag.
3. Disconnect the roof webbing loops and roll up the roof.
4. Unlatch the right hand lock and swing the side arm inwards. Ensure the hook and loop fasteners are accessible.
5. Repeat for the left side arm, unlatch the lock and rotate the side arm inwards.
6. Secure the arms with the middle hook and loop fasteners.
7. Roll up the Shower Tent to the top, then position over the arms and secure with the end hook and loop fasteners.
8. Secure the rolled roof and peg bag in with hook and loop fasteners.
9. Position the transit cover over the Shower Tent then zip up to complete pack down.

## CARE & STORAGE INSTRUCTIONS

1. Remove dirt with a soft brush and cold water after use.
2. Do not clean with soap, detergent, petrol, oil or solvents.
3. Ensure Shower Tent is completely dry before storing.
4. Correct storage is vital for the longevity of your Shower Tent. If on occasion the Shower Tent is required to be stowed wet, it is essential it is unpacked and dried as soon as possible. Water damage, mildew damage and incorrect storage is not covered under warranty.
5. The transit cover provides weatherproof protection from the elements while in transit. It is recommended that you open your Shower Tent periodically between use to inspect the material and allow it to dry out.
6. If spot mould is visible, brush it off with a stiff bristle nylon brush and vacuum the area to get rid of any residual spores.

## STRUCTURAL INTEGRITY

This Shower Tent has been designed for general camping in normal conditions. Always ensure all pegs are anchored correctly. It may be necessary to re-adjust pegs at times to maintain the structural integrity of the Shower Tent.

This Shower Tent is designed as a temporary shelter, not a permanent structure. Do not leave up for extended periods and do not leave unattended.

To avoid the chance of personal injury and or property damage, DARCHE® recommends this Shower Tent should not be erected or used in extreme weather conditions.

Your vehicle should not be moved while the Shower Tent is deployed.

Designed and tested in Australia for Australian conditions.
