

YOUR ULTIMATE 12V TRAVEL PARTNER

Fully integrated, high-performance
energy for wherever the journey leads.

 **DOMETIC**

POWER WHAT MATTERS, ANYWHERE

From the job site to the campsite, Journeyman delivers dependable power for the gear you rely on every day. Engineered for versatility, it brings together performance, efficiency, and a compact footprint, so you can take on any task or terrain with confidence.

LAPTOPS
Work, plan and connect from anywhere

POWER TOOLS
Stay productive on-site or off-grid

LIGHTS
Set up camp with ease

AIR COMPRESSORS
Reliable power when it matters most

POWER WHAT YOU USE MOST

Designed to support your essential gear, Journeyman gives you the confidence to run everyday appliances wherever you are. Engineered for reliability and ease of use, it delivers seamless power in a compact system, so you can enjoy greater comfort, convenience, and independence off-grid.

FRIDGES/FREEZERS
Keep food and drinks cold on any journey

BATTERY PACKS
Keep portable power ready to go

INDUCTION COOKTOPS
Simple, efficient off-grid cooking

COFFEE MACHINES
Start your day right, wherever you wake up

DESIGNED TO FIT. ENGINEERED TO INTEGRATE.

Journeyman is purpose-built for seamless ute tub installation, combining a compact power system with a dedicated mounting solution. The result is a clean, secure setup that maximises space while keeping everything accessible and ready to use.

Purpose-Built Mounting System

- Designed specifically for ute tub sidewall mounting
- Strong, precision-cut bracket system for secure fitment
- Positions the system neatly above the tub floor
- Maintains usable space below for storage and gear

Seamless Integration

- Sits cleanly within the tub without obstructing access
- Works alongside roller covers and tub accessories
- Complements modern 4x4 setups with a clean, professional finish
- Designed to look like part of the vehicle, not an add-on

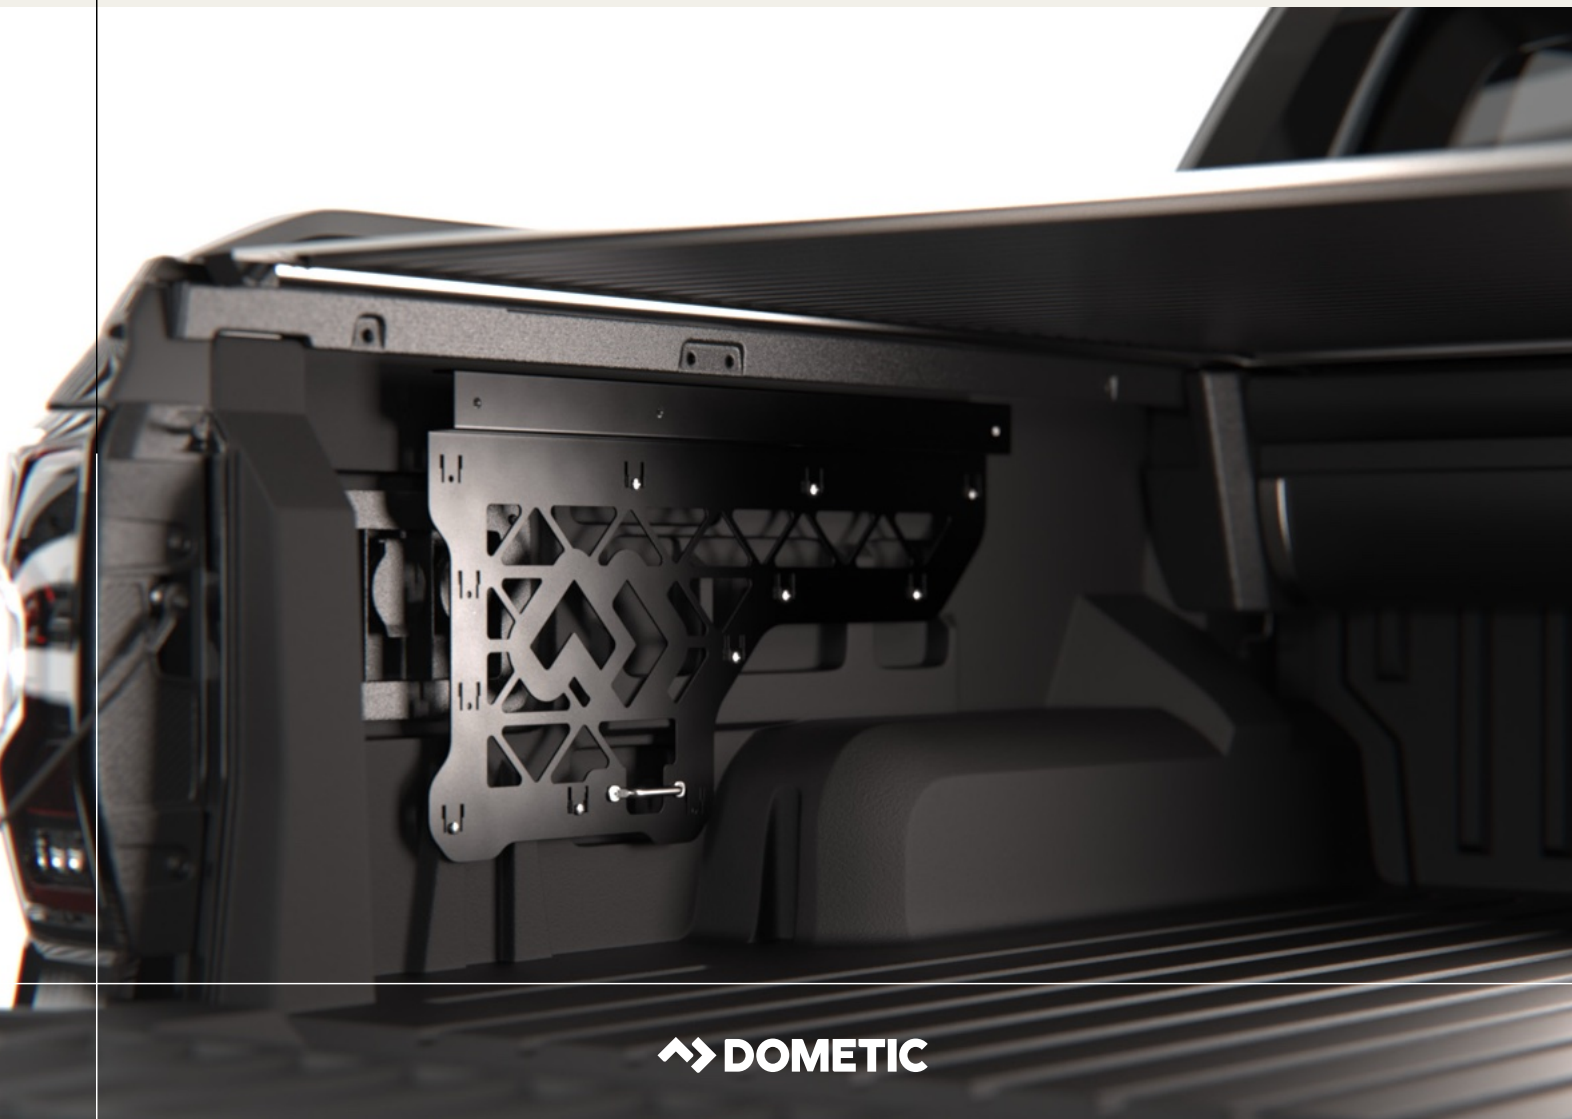

BUILT FOR THE WAY YOU USE YOUR UTE

Optimised Space & Accessibility

- Elevated mounting keeps your tub functional
- Front-facing controls and outputs for easy access
- Logical layout for charging, switching, and monitoring
- Keeps cables, components, and gear organised

Fast, Flexible Installation

- Pre-wired system reduces install time
- Universal mounting design suits a wide range of tubs
- Simple, secure attachment points
- Engineered for durability in off-road conditions

JOURNEYMAN - UTE TUB POWER SYSTEM

INCLUDES 2000W INVERTER WITH BUILT-IN SAFETY SWITCH
The built-in RCD safety switch protects your 230V gear, for peace of mind.

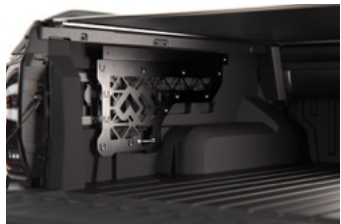

INCLUDES 40A DC-DC CHARGER
Dometic 12V 40A+ DC-DC charger automatically charges batteries from alternator or solar using built-in MPPT, seamlessly switching inputs without relays to maintain house battery power.

INVERTER CONTROL PANEL
Effortlessly turn your inverter on/off from the front panel.

DC-DC CONTROL PANEL
Conveniently access the DC-DC charger to change settings

UNIVERSAL MOUNTING KIT
Easy installation with Journeyman Universal Mounting Kit fits all ute tubs, plus dedicated bracket ensures simple fitment for next gen Ford Ranger and VW Amarok.

5 YEAR WARRANTY

BUILT TO LAST
Covered by Dometic's 5 year warranty

The Journeyman is Dometic's streamlined ute tub power system, featuring a 2000W inverter with 240V AC, USB-A + USB-C ports, a 12V socket, and Anderson plug. It powers essential gear on the road or off-grid with ease. Charging is handled by a 40A+ DC-DC charger with MPPT, allowing efficient input from vehicle or solar. Available in multiple configurations and paired with a universal mounting kit, the compact, pre-wired design reduces installation time and saves space, with integrated protection and switching for simple, reliable operation in any setup.

SPECIFICATIONS

Inverter: 2000W
Outlets: 240V AC, USB-A + USB-C ports, 12V socket, Anderson plug
AC Charger: N/A
DC-DC Charger: 12V 40A+ with MPPT solar controller
Solar Input: Integrated (via DC-DC)
Mounting: Universal mounting kit included
Switching: 3 push-button switches
Warranty: 5 Years

HIGHLIGHTS

- Built for reliable, on-the-road 12V power
- Compact, space-saving design for ute tubs
- Integrated system reduces install time and complexity
- Engineered for durability in off-road conditions
- Seamless fit within your 4x4 setup
- Simple, ready-to-use power solution
- Premium components with a clean, professional finish
- Designed for work, travel, and adventure

LEARN MORE

MODEL	K-JOURNEYMAN-01
DC Battery Charger	12V 40A+ DC-DC Battery Charger (Vehicle/Solar)
Solar Charge Input (Solar ready)	Up to 8000W Solar (via DC-DC @ 450VOC)
Lithium Battery ready	✓
Inverter	13.0 - 13.8V
Equalise	2000W AC Transfer Inverter with inbuilt RCD Safety Switch
Pre-wired Circuit Breakers for Main Power Equipment	✓
Switches	3 x 10A Pushbutton with Indicator Light
Pre-wired 70mm ² Main Battery Cable Connection with Main DC Fuse	✓ (with 175A Anderson Plug socket)
Pre-wired 50A Anderson Plug connection	✓
USB Socket Output	Twin USB-A & C 100W Sockets (x2)
Cig Socket Output	1
Anderson Plug Socket Output	1 (Front)
RCD Protected Powerpoint	1
Load Output 50A Circuit Breaker	✓
Ignition Input for Smart Alternator Equipped Vehicles	Yes. Requires connection
2000W Inverter 200A Input Circuit Breaker	-20° to 60° C
Orientation	Left
Weight	20.0kg
Dimensions (mm)	911L x 165W x 390H
Warranty	5 Years

Pre-Wired DC2DC Battery Charger

12V output up to 40A+ ideal for charging your auxiliary battery via vehicle or solar

Solar Input

The integrated MPPT solar regulator delivers maximum output from your solar PV, up to 800W solar @ 45VOC (via DC2DC charger)

Intelligent Charging

Automatically monitors and regulates its output, adjusting according to the battery's specific requirements for optimal charging

Optimal Charging

The integrated MPPT solar regulator delivers maximum output from your solar PV, ensuring fast and efficient battery charging

Pre-Wired 2000W Inverter

Power your 240V appliances on the go with the 2000W AC transfer and inbuilt RCD safety switch

Super Versatile

Compatible with Lithium, Gel, AGM, and Flooded batteries

Peace of Mind

Pre-Wired Circuit Breakers for Main Power Equipment 200A Inverter Input circuit breaker, 50A Load Output circuit breaker, & RCD Protected Powerpoint

Pre-Wired Switches and Plugs

1 x RCD Protected Powerpoint
3 x 10A Pushbutton with Indicator Light
2 x Twin USB-A & C 100W Sockets
1 x Cig Socket Output
1 x Anderson Plug Socket Output
1 x 50A Anderson Plug Connection
1 x 175A Anderson Main Battery Cable with Fuse
